#### Selling Points

##### 1 Petite Size, Robust Features

The streamlined and stylish Aspire X3400 is just **one-third the size of a traditional PC**, making it easy to fit almost anywhere in your home.

Despite its small size, this PC can handle the most challenging tasks, thanks to the **AMD Athlon™ II X4 quad-core processor** that powers through advanced multitasking and lets you play games, run apps and enjoy stunning digital media.

Work and play fast with **4GB DDR3 Memory** providing quick system response so you can multitasking effortlessly.

High-speed **10/100/1000 Gigabit Ethernet LAN** and **802.11b/g/n connectivity** keeps you connected to the Internet for reliable browsing and online gaming.

##### 2 An Exciting Entertainment Experience

Enjoy superior graphic performance and rich visual effects and incredible realism on today's popular games and applications with **NVIDIA® GeForce® 9200 Graphics**.

Extend your HD movies and the highest-quality content to your big screen television or external LCD easily with a single cable through the **HDMI Port**.

Watch movies and burn DVDs and CDs of your favorite music, digital photos and movies with the **SuperMulti optical drive**.

**High-definition audio support with 5.1-Channel Output** provide intuitive surround sound and enhanced base from any pair of speakers.

##### 3 Lots of Storage and Plenty of Extras

**Acer Arcade 2010** is your all-in-one media portal that offers an effortless approach to manage your digital media.

Store your entire multimedia library and backup your important documents on the enormous **1 Terabyte Green Product Hard Drive**. By using variable RPM, this eco-friendly drive consumes less energy while staying cool and quiet.

The **Multi-in-1 Digital Media Card Reader** is located in the front for convenient access when transferring photos, music and video from popular digital devices.

**eSATA port** provides a high-speed connection to external hard drives to quickly off load files or expand your storage space.

**Windows® 7 Home Premium** makes it easy to create a home network and share all of your favorite photos, videos and music. If you like media, Home Premium is for you.

(1) Overall system performance is based on several PC attributes. GHz, processor clock speed, is one of the attributes.

(2) Shared system memory may be allocated to support integrated graphics depending on system memory size and other factors. Actual system memory available to the operating system will be reduced by the amount of shared system memory utilized by the graphics solution and resources required by the operating environment.

(3) 1 GB is 1 billion bytes. Actual formatted capacity is less and may vary depending on preloaded materials and operating environment. Acer eRecovery Management utilizes up to 8 GB (10 GB with Microsoft® Works with Office Home and Student 2007 Trial) of the stated hard disk capacity as dedicated backup space.

(4) For a free copy of the standard limited warranty end-users should see a reseller where Acer products are sold or write to Acer America Corporation, Warranty Department, P.O. Box 6137, Temple, TX 76503. TFT displays commonly exhibit a small number of discolored dots, so-called "nonconforming pixels." This phenomenon is a limitation of TFT LCD technology, not a product defect and, as such, is not covered by the limited warranty or by the upgrade programs. For international travelers warranty Valid only in countries where Acer has an authorized repair facility. For a list of those countries go to <http://global.acer.com/support/itw.htm>, or call 800-816-2237. Services and response times may vary in countries outside the U.S. and Canada

(5) 60-days of complimentary subscription. Internet connection required to start trial.
